Technology Services Technician candidate with hands-on experience in ITIL-based service delivery, technical troubleshooting, documentation, and customer support. Strong background in incident response, asset workflows, and user-focused technical communication.

EDUCATION & PROGRAMS

Texas A&M University, College Station, TX

August 2022 - Present

*B.S. Technology Management – College of Engineering
Minor in Business*

FES Institute

May 2020 - Present

Front-end Development Program

PROJECT EXPERIENCE

Optimizing Business Process Workflows (Capstone Project)

IT Service Management / Risk & Compliance

August 2024 – Dec 2024

- Applied ITIL 4 principles to analyze service workflows, incident risk, and compliance gaps.
- Documented findings and recommendations aligned with change management and service improvement.
- Produced executive-ready reports and presentations supporting decision-making and process standardization.

Applied Machine Learning with Python (Course Project Portfolio)

Python / Data Analysis / Machine Learning

January 2025 – April 2025

- Implemented and trained multiple machine learning algorithms from scratch using Python.
- Built supervised models including K-Nearest Neighbors and Decision Trees for classification tasks.
- Developed unsupervised models including K-Means and DBSCAN for clustering and pattern discovery.
- Performed data preprocessing, normalization, model evaluation, and visualization using NumPy, Pandas, and Matplotlib.

Personal E-Portfolio Website

Front-End Development

August 2025 – Oct 2025

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript.
- Implemented interactive UI features, including modal navigation, theme toggling (light/dark mode), and animated background elements.
- Integrated EmailJS to support a functional contact form with client-side validation and user feedback.
- Deployed and maintained the site using GitHub Pages, showcasing projects, code repositories, and professional links.

SKILLS

Technical: Windows OS, Microsoft Office, Hardware & Peripheral Support, Software Installation, ITIL 4

Tools: Git/GitHub, HTML, CSS, JavaScript, Python, Data Analysis & Documentation

Professional: Incident Tracking, Asset Management, Troubleshooting, Customer Support

LEADERSHIP

Lead Parts Sales Representative — NAPA Auto Parts

March 2022 – Present

- Provided front-line technical and customer support in a fast-paced service environment.
- Trained staff on POS systems, workflows, and troubleshooting procedures.
- Coordinated inventory tracking and operational workflows, escalating issues as needed to ensure uninterrupted service delivery.
